sorry for the slow reply

anyway I just tried that  
near as I can tell it made no difference  
when I click servers I get this

is it possible I'm doing something wrong  
GamSpy seems to have so many dif sections I wonder if I have just got it all wrong

could you give me a snapshot of what you get ?  
id like to see if there is anything there worth going after to biginwith

doesn't have to be servers with 150 people  
even 5 people playing on fan maps would be something  
rate now when I join a fan map server I'm on it alone and the thing wont even start
