If Renegade X would adopt some features of Beta Renegade, it would look better.

Beta Renegade was a LOT different, in a better way. Orcas had a realistic opening hatch. Most Units were modeled after FMVs in TD. Havoc was a gritty commando, named Logan, who is seen in the tutorial. Many aspects were different, such as grenadiers and flamers and Chemmers exploding on death. I mean the whole game was more realistic. And EA killed it.
