MtOwn for sniping

But now I just go back between Atomix and Jelly.

Whenever I saw that list he made I was like wtf... You don't even have LTROUSH CTF up there? That list automatically FAILS.

Hands down LTROUSH. Black-cell/Xphaze for aow. For sniping, it was Fnfall/gz0ne, then mt0wn whenever it came around.

Now, it's either Atomix, st0rm, and 1337. Basically the only servers I play on now.
