3:50~min video. 6-8 month project, finally finished with it. Total project cost across three organizations/companies (Harp foundation, DCOM Productions, Five Star Automation) around \$150,000. Basically a bridge was built as a memorial and DCOM Productions wrote all the software apps/database/networking/etc. Was a complete awesomeness span of my life. (And yes, that's me in the video). This was the final installation and the project is -closed- and -complete-
