We have made changes in scripts 4.0 that should render existing radar hacks (all the ones we have seen/can find) non-functional, so there is no radar hack detection in 4.0 at this point.

Should a radar hack that is compatible with scripts 4.0 appear, we will naturally release a fix that either breaks the hack so it wont work or that can detect it.

for real dude, get a life and a decent hobby u weirdo... damn
