Halo381 did post back asking if it was a renegade related site (a requirement of getting in) I couldn't find anything at the time that suggested it was so it was nerfed, sorry

The gaming realm's banner wasn't the best quality hence it's absence. (i have to think of my final product too)

Well, it's related to the Ren. Community since Nitrous-Oxides = owner of PrimeServers...But I guess that I've never seen the reply...
