cmatt42 wrote on Tue, 12 April 2011 11:10 From what I recall in Renegade, this just looks like you and he might just be lagging a bit. It's especially indicative that in those Patch videos, those Sakuras don't seem to see you in front of them for at least a second.

It's not lag. Tracers can be non visible with lag, but lack of sound or muzzle flash cannot. Only rgh, rof, and FR can have such a thing occur.
