fixes the pistol ammo not being refilled when you refill.

i use a timer to fix refilling (without this, the pistol behavior will change to no-reload when you refill).

I have never seen this problem.

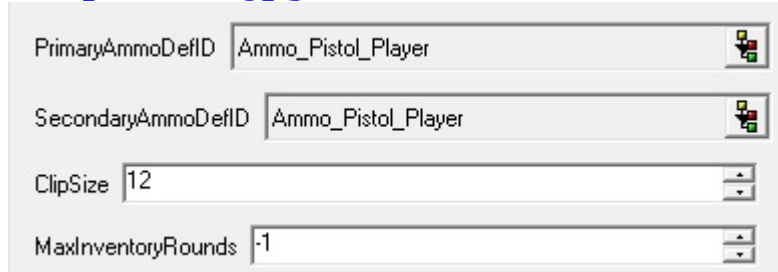

This is the default ammo settings for the pistol.  
MaxInventory = -1 meaning unlimited ammo 999.

I don't see why you have to set the ammo. Doesn't matter if the player refills.

1) [pistol.jpg](#), downloaded 823 times

A screenshot of a game's configuration window for the pistol. It contains four settings:

- PrimaryAmmoDefID: Ammo\_Pistol\_Player
- SecondaryAmmoDefID: Ammo\_Pistol\_Player
- ClipSize: 12
- MaxInventoryRounds: -1

Each setting is in a text box with a small icon to its right. The text boxes have a light gray background and a thin border.
