I lol'd.

Said this at 3 different forums. Bin Laden has been dead for a few years now. Imo, this is just a way for Obama to get his approval ratings up. Somethin along the lines of:

"President Obama gave the approval to attack Bin Laden..."

... or something like that was said on like every news station lol..

There's a video, I think it was posted in 2007. I think the person in that video was killed not 2 weeks later after that interview, as well.

In short, Bin Laden has been dead.

While that may be true, it is likely to presume that he was killed or found dead in Obama's period in the white house. Because of the very very simple reason that IF he was killed/captured/found during the Bush administration, Bush would've been the first to let us know. I mean, that would've helped the republicans a lot during the elections and helped tremendously with justifying the 2 wars the USA is in today...

You make a good point. But, there are facts (by truthers and conspiracy-theorists, so actually "believing" these could prove false anyway) that says that Bin Laden has been dead for years now, even worked for the CIA, or had some "affiliation" with it. There are some facts/theories/subjects that say that Bin Laden even worked with the Bush family. Though, getting into a political debate about how corrupt our government is isn't exactly good on renforums xD
