IceSword7TaximesTheGunrunHey does any one have any info about that asteroid that has a 1 out of 909,000 chance of hitting earth in 2014?

1/909000

That's a 0.00000001% chance, skipper. Not something I would lose sleep over.

just in case i think ill run around in circles screaming like a little girl untill 2880 when we know for sure

you got that from popular sicence.....

about the astroid, bound to happen some day
