like the Title said, we just released our new Beta Version 1.5.
Beside some new Models that finally found their Way into the Game we also made a good amount of Balance Changes, fixed a few Bugs and added Vehicle Repair Zones to WarFactories. The Patch can be downloaded easily with the SCUD_Launcher that might have already told you that there's a new Version available. For more Informations and a complete List of all changes made take a look at our ModDB Page or visit us at www.battlefordune.eu. We hope you enjoy our work and don't hold back some reports about bugs you might encounter.
