lol, ur life is a living hell? dont worry it ends, it did 4 me....

4th - 7/8th grd.... thats when things changed.....

its amazing what happens to ur mind when a girl some how walks into ur life it will be 6 months in
bout 7 days (thats the 9th of this month)

life goes on man..... u just have to wait, i still have the ocasional rough spot, but so does every 1
else.....

oh, and u may wantto talk to a doctor, u COULD suffer from deression, i did, not sur if i do or not,
it may b gone (b/c of my gf), or it could be the meds, who know who cares.

life gets better, it just takes time, life tends to even its self out
