halo2pac wrote on Mon, 25 July 2011 04:17I'm not showing my desktop. The fact is I have 3 legitimate rigs, with 23' flatscreens, over 10 tb of cumulative storage, 2 server blades, and 30 PCs from 400mhz - 1200 mhz Scattered around the room.

Looks like I raided a pc storage warehouse in my basement. (no I did not, I just saved all my old computers)

C&C Tiberian Sun lan party at my house anyone?

Also, I'm sorry in advanced but I absolutely have to make fun of him:

HAHAHA - I actually LOL'd.

Just so you know - I don't smoke, my ol man does, yes that's to measure my epenis cos it fails compares to Xperts and the orange thing by my keyboard is a highlighter pen. My cough syrup is paint lol.

Nevertheless I LOLd hard.
