Yeah it only does that, but it causes the tracer to misalign, it's especially noticable from a distance like in this video:

<http://www.youtube.com/watch?v=FhXGmcnktBA>

and this one:

<http://www.youtube.com/watch?v=csv1HkYc50U>

and at the start of this one, you see a guy's tracer misaligning when he has *cheat name removed*aimbot targeted on the head from both my view (for a split second) and a friend of mine (the Gunner):

<http://www.youtube.com/watch?v=tzDLYnrC74Q>

Another SBH one:

<http://www.youtube.com/watch?v=33vtEqKqTZY>

Close range snap to head:
