First vid you posted, your ping went apeshit right before that: 238 -> 171 -> 213. Could have accounted for the wild shots and looking like you being raped. I get that alot with my net doing it as well.

Admittedly that was the only video I watched...if you have more lag-free ones of this guy I'll watch. Would be interesting to see if he still pulls that off. o.O

I wasn't able to find anything on this guy..everytime I nicksearched, the ipbot would decimate our bots with excess flood and crash.
