genuinely good map worth downloading: Mesa2 (simply Mesa with the deadzones fixed - the bug that causes damage problems for tanks and rockets on the bridge/side paths)

<http://www.renegadeforums.com/index.php?t=msg&goto=411732&rid=20608>

adds an enormous amount of strategic depth to the game just by fixing that bug

But useless when TT comes out... as this is just a workaround for that bug...
