Blazea58 wrote on Thu, 18 August 2011 01:15 Why does your ammo go from 3 to 4 so quickly and never have to reload your weapon? That in itself has to be cheating if not i would like to know how your ammo refills every single shot... Oh and i think i saw you were using Clearscope also o.O  
Nice way to show off that you could be a cheater o.O

- 1) It's called no reload servers.
- 2) It's not a completely clear scope, so shut the fuck up.
- 3) You're an idiot.

Overall, good video sir.
