Spoony wrote on Fri, 19 August 2011 14:07i saw that too, figured it was some ingenious solution to the a00 problem
Top secret TT technology   Hmm, I shouldn't have said that.

In the final version of TT every server on XWIS will use the same nickname, so we're done with that debate as well. The servers will automatically communicate how much servers there are and then they'll sync the time they are allotted to show each server. Quite ingenious tech this.
