HaTe just found himself shunned from yet another community and had to move somewhere else to bitch. Big surprise. I don't read the spam forum because I don't want to lose IQ points. I just saw the bottom of the main forum that the last post was in a thread that had my name so I dropped by to check it out.

You clearly don't know what "tool" means. If you're going to insult me, at least use the right word.

Quote:She's just the tool that lets them do whatever the fuck they want

A "tool" is someone who is too stupid to realize they're being used. Such as the wealthy friend that no one likes but he pays for everything so you bring him along to places. The people who volunteer their time to manage n00bstories on a day-to-day basis know my vision and to that end, they do the best they can to keep people like you out. If you didn't think that our server and community were a fun place to be, you wouldn't be so butt-hurt to have been shunned.

Above all, I demand, yes DEMAND, that the people who we select to be moderators (actually we call them "n00b kickers") be treated with respect that they richly deserve. They sacrifice a bit of their own game time and fun to help keep things running smoothly and I will NOT tolerate them being treated like crap by the likes of you. Period.

But if that makes me a "tool", then so be it. You're still banned, regardless.
