Quote:OK so your story is that we randomly find people to dislike for no reason whatsoever? No. You randomly find a reason to ban or get rid of people who in your minds are "too good to be true." Though I shouldn't include you in this, since you don't do anything there either way.

Quote:Um, wrong?

Damn, you caught me. You just proved me and everyone else who knows this completely wrong. Damn you're good.

I didn't go against his decision because I saw no reason to overrule it.

How about the fact that RG SUCKS, and I was running scripts 4.0 which has an actual anti-cheat system? RG doesn't work on my computer, nor yours apparently. 4.0 however, does. So I was banned because my anti-cheat was too advanced for the simple life of n00bstories mods apparently. How in the hell can you not find a "reason to overrule?" I mean honestly, do you see any sense whatsoever in that decision? AT ALL?

Quote:Neither Jarhead or I owe each other any "favors". Where are you getting this stuff? This is rich...

Tell ya what, next time I'm home, i'll get on my computer with the logs and show you. You obviously don't remember because you were so upset that i called you fat. Don't pretend like you weren't neither, you had me banned on this forums because of it, and then unbanned shortly after when you chilled out a bit. Not to mention the whole NS forums situation as well.

I like how you made up a story to make your incorrect use of a word become correct.

You need to get out more. The word "tool" is slang for someone who has been made a bitch by someone else. You may disagree that you are indeed this, but the slang term is actually 100% correct...

"Asking for a verbal explanation" - and you wonder why you were banned. Those 5 words just scream "I am the type of person you DON'T want around!"

What? Uhm, i was unfairly banned and posted on the forums disputing the ban. I was nice and calm to begin with, until my topic got deleted, and JarHead started removing my rights for no reason at all. Check your admin panel chubbs, it's all there.

Quote:And you admit that you circumvented your ban.

Again, I am not and was never banned. I simply have my posting rights removed currently, and at the time i was posting, i only had my topic creating and pm rights taken away. I didn't evade or bypass shit...get your facts straight.

I'm surprised that you still wonder why you were banned. Let me spell it out for you in simple words.

For the third time now, I am not banned. Let me spell it out in simple words for you there now:

I  
am  
not  
banned  
so  
please  
learn  
to  
read  
.

Is that more clear for you?
