Xpert wrote on Wed, 24 August 2011 13:29The installer on game-maps also adds a shitload of maps. There are people who don't want to download a crap load of maps just to get to scripts 3.4.4. It also had a few shaders for the mammoth and flamer that some people might not even want.

No it doesnt. The installer on game-maps installs only the dlls.
The ubermappack on the other hand CONTAINS 3.4.4 and hence installs a shitload of maps

I think you got a bit confused
