Quote:Does this happen occasionally or frequently? I've never seen this happen personally and you're the first one that I hear complain about it.

it does hapened to me many times before, but no real trouble for me anyway, as for the patch i agree whit JW to let servers owners to deside during the beta public testing period, the only thing i can say i would't like to face, is a server that doesnt allow me to use model replacement as i read somewhere TT suport some feature against that, and to be honest i dont know if i would keep playing having to see original ren lol, i dont like ren's originals grapics/models, but it is just my opinion i gess.
