I live in a very multicultural part of my country (whites 50%, south asian, east asian, middle eastern, and blacks make up 50%) I think European and South American women are the best. I don't mean to be racist, I believe all races are equal (blah blah) and beauty differs from person to person, but I find Asian (east Asian) facial features to be generally unattractive. I like big, coloured eyes on women and I'm not a big fan of Asians' very-straight black hair. I like volume. I'm also not a fan of their generally flat noses. That's just my personal preference - anyone who disagrees with me is not "wrong" of course.

That's not to say I like all "white" girls either. I personally don't find British and Nordic women attractive either.

And there's always exceptions, and in reality, I probably won't be as picky.
