Quote:Problem

When I go online, I get a message "incompatible version of Westwood Online (WOL)

Solution

Normal Renegade

If you have normal ren (not the first decade), this is usually because you installed an older C&C-game (red alert 2, for exemple) after renegade and you installed WOL for it.

It will then install an older version of WOL over the renegade version and you'll get an incompatibility message.

To solve this, just launch the setup on the install disc and only select the WOL components to be installed. It'll reinstall WOL and your problem should be solved.

The First Decade version of Renegade

Download this and run it and select only "WOLAPI" install. It will install the latest version of WOL.
