Cronus wrote on Wed, 07 September 2011 23:01lol Mike and Azazel both talk as if just because there is no more renegade its time to kill the community. Like I said its a place of chat now. No "killing it" or "RIP" Mike you join kamuix still, the IRC is still there and probably always will be. I just have a strong malevolence towards what I would call marketing talk, aka bullshitting. Tell it like it is and attract like-minded people, no need to trick anyone. I personally like your network (except the stupid spam bots) and find it an overall friendly atmosphere.

PD: sorry for my english lol

I am unsure what you are asking in your last question, but I have not heard from tatiana in a long time.

Kamuix wrote on Thu, 08 September 2011 03:28I miss my online community so much! I love how my servers were still running and my community is still around despite me having been gone from gaming for so long. Lol atleast I haven't died!

But seriously yeah I'm so proud of the people who kept my servers going since i've been gone I honestly never thought that It would last without me just because the game was losing traffic but it's so nice to see how the online communities somewhat stuck together.

After awhile your nick became somewhat of a legend, with most of the players having never actually talked to you or seen you in-game. All they really knew about you is the stories we passed down lol

Kamuix wrote on Thu, 08 September 2011 03:28The one thing I definately don't miss is all the assholes in the Renegade community constantly judging and criticising eachother over stupid pointless things.

YOU OWE ME THAT A00000005 NICKNAME!!! ...and can I be a mod?

Kamuix wrote on Thu, 08 September 2011 03:28Like at the time 5 years ago or so I was really shy in person and my server and community was where my social life and honestly some of my best days were back when I had my online community and being creative with making serverside maps, mods and my own commands and whatnot. But yeah I loved my community and i'd go back and do it all over again if I could but there hasn't been a game like Renegade to do anything like that with as far as I know.

Thanks for the good times, even though I wasted far much of it

Oh by the way. You promised me an update like 4 years ago... I'm still waiting.
