---

Noisia - Gutterpump

Noisia has some nice stuff. Some of it's D&B which ends up being a bit too dubstep-y, but songs like that are pretty good.

Buck Tick - Dress

herp derp weeaboo, but goddamn dat bass.

Buck Tick - Kuchizuke

Actually, Buck Tick is a pretty damn good band as far as I've seen- they have a pretty wide variety (despite their overly goth visuals). Although, the videos end up being creepy (in an undesired way).

Parov Stelar - Catgroove

Parov Stelar is definitely "niche" music, in that it's modern dance/electronica/whatever mixed with older swing dance style (amongst others, but don't feel like going into specifics). But dayum, it's catchy stuff.

sorry if my tastes aren't hipster and/or WOBWOBWOB enough, but you'll like the way it sounds. I guarantee it.
