xryan wrote on Tue, 13 September 2011 21:56 Really you all should just stop talking. I'm just sitting here laughing at everyone's replies. I'm not making a fuss over anything. For the 3rd time, my original post is simply a statement about how things are on Renegade these days, period.

I was not speaking at all about anything that had happened, or any particular incident...therefor, nothing to make a fuss about. Just a statement, not a fuss, not a threat, or anything else any of you might like it to be.

Is that so? Here is an excerpt of your first post. Notice the parts that I underlined:

xryan wrote on Tue, 13 September 2011 21:56....I had an epiphany...maybe all you fucking kids should grow the fuck up, and get off your worthless power trips.

If all you have to look forward to everyday is booting people from Renegade servers to make yourselves feel better, than maybe its time you get a serious life. Move outta moms house, get a job, support yourself, get married, have kids and support them as well. Do something in your life actually worth being respected, rather than just sitting on your sorry immature asses kicking people from Renegade servers all day, trying to make yourselves feel important. Nobody cares about that but you.

Grow up, quit killing what was once a good game...or maybe its too late for that, so it seems. It seems to be pretty clear to me that you're directly implying that we, the people who contribute to these forums, are the people whom you're ranting against. Or am I misinterpreting your skewed definition of "you?"

If your intent was to express a point that there are servers with mods that abuse their powers, then you failed at that the instant you used the term "you" to direct your insults. When you use the term "you" to direct something, it gets directed at the person receiving the communication, or in this case, everyone reading your post.

If someone comes up to me and says "You are an idiot" what other way am I supposed to take that other than an insult?

And that isn't even considering the fact that the "you" you're implying about are server owners/mods. So, not only are you blindly insulting people you don't know, you're also randomly associating them with people who are doing obvious wrongs in the game. So you're insulting us and accusing us of things we didn't do.

xryan wrote on Tue, 13 September 2011 21:56 The only reason I am still replying is because for some reason, every body thought it would be a good idea to get on here and post a bunch of bullshit, as if they had any idea what they were talking about, as if I had insulted any one of you, or said anything that had anything to do with any of you...I'm simply replying to comments.

Doesn't seem to matter how much I try to make that simple point, you people just don't seem to get it.

No, the only reason you're still posting is because you made a simple mistake by directing your

rant at the wrong people but are too pigheaded to admit to it. So you keep enforcing your stance and slowly manipulate its meaning until the point where its "new" meaning lets you slip by with a simple "Oh, I didn't mean it that way guys. Lol, you're all fools for misreading what I said!  
Haha-ha...ha "
