Starbuzz wrote on Sun, 18 September 2011 20:38Hi all,

I adjusted the sbbo (thank you EWD for full help!) and all my problems have disappeared! I will reconfirm tommorrow night after I get a lot more games in. So far looking very smooth, no warping/lag/ice skating.

I am good to go! The only odd thing is players sliding instead of walking but this happened only 1 time today for about 2 secs. Otherwise, no further problems.
