ok some of your points are true .I hold my hands up and say I can be a dick . but I was and still am driven to defending my self in games ..

ie
in noobstori's other night was playing fine when aziee joins and starts sayin why you in here you use *cheat name removed*and cheats and ddosser servers and wilo says your a pedo ...all this in open chat so then others start asking is this true as we know storm mods and we trust them ect ..

I get this in any game regardless of name as some one always points me out ..

would you expect me to just play and say nothing to defend my self would you say nothing .

at some point above some one says mdk has mental issues and yes this is totaly true
<http://www.rcpsych.ac.uk/mentalhealthinfo/problems/bipolardisorder/bipolardisorder.aspx> read some of my symptoms pls tou understand .

also some in game have used this knowledge against me with things said like [go top your self] [go drink your self to death mdk] and other out of line things said and they know they will get a responce from me as most mods do or say nothing

dude to be real with some oth the things you have seen said to me would you not be totaly pissed and angry.

and if you had play with me befour this all started you would know I am a great team player always rep or mine -donate anyone and everyone in game as they start with low creds regardless of like or dislike

sorry for the above comments but you seem to have join the topic with the point of attacking me also . and seems you have a natural dislike for me regardless of what I say or do..

but to you and all I apologise for anything said or done or may say or do in the future . its hard to stay quiet .maybe I could remove my chat box in game somehow lol
