You still don't understand why nobody remotely values your opinion do you?

You're a weak faggot, and always will be.

Firstly, you cheated, because you cant take it that other people are better at the game than you, so you have to go fuck it up simply because your pathetic mind cannot accept it. While cheating you try to take part in a feud between two communities you knew (and still dont know) absolutely nothing about, just adding fuel to the fire so you could drive your tongue deeper into the anuses of the n00bstories admins. You sad little gayboy.

Then you got caught, and instead of coming completely clean and apologizing, you come up with some bullshit excuse (what a man you are) and when people dont buy it, instead of facing up to it, you just run away, HA. Coward.

Then when you come back you act as if nothing happened and like your posts aren't a complete waste of space.

Go bother some other game community, where there's abundant room for faggots like you.
