I've defended you numerous of times, helped you different times, in public and in private. So saying that whole st0rm was against you is just not true. No matter who started it, you have caused enough trouble to be network banned from st0rm and from other communities. And you know that. And you are still talking about lies? I'm just, shocked.

The way you are talking right now, even here in this thread, is just disrespectful towards the people who have tried to help you fix things. You are older then me MDK, act like that for once please.

There are tons of log files, tons of forum posts and tons of screenshots everywhere that can proof that you either acted like a complete asshole to some of us, as well that some people tried to help you. I don't even want to spend my time searching all of it, because I would be busy for weeks.

Apology would be great. And if you don't want to give it to certain people, then give it to those who actually deserve it.

See you ingame. And try to avoid problems from here on.

Oh, and Azazel, just because of the fact that I never have known you already shows me how long you have been away from st0rm. Keep your despicable reactions regarding this subject or a community in your mouth, knowing your history, they have no value at all.

Regards,

Joey
