haha what, why did you bump this thread? oh well

@The Thing: I'm slightly afraid the prequel, because revisiting an old movie (remake OR prequel) has been proven to be pretty fucking awful a lot of the time. And I loved the Thing. Anyway, it's not even out yet, so, what?

@C&C: C&C is a fun series, and has always had amazing potential, but as far as an actual story, it was unfortunately never expanded on enough to make it good. A shame, because I've always felt it could be expanded on a lot.
