Aircraftkiller wrote on Thu, 22 September 2011 00:14It originally had a Weapons Factory and a Hand of Nod, but I replaced the WF in favor of the Barracks.

That's... curious... I wonder what Westwood intended GDI to do with vehicles considering none of the routes are big enough for a humvee, never mind a mammoth tank... would have been an easy win for Nod since they would just roll over GDI with advanced infantry against basic infantry...
