j4S[p]We should of waited for RenGuard, All you folks who like your rank are going to lose it, Cheaters will play in Laddered games and rack up points...

I am number 10 in the ranks with all the other n00b cheaters but i dont cheat. i found that by using mammoth tanks only the cheaters will lag out so im totaly fine due to the fact most players cheat heh..

<http://www.n00bstories.com/image.view.php?id=1311250820>

i played with every one in this list of cheaters they are relentless. hope ren guard comes soon untill then i will be buying mammoth tanks and instrucing my team to do too.
