I'm banned from DA because sum kid named Gohax thought I was getting too many kills and forced me to use Ren Ressurrection, which is no longer possible with 4.0 installed. Nothing personal dude, just had to put it out there though

I miss the old EKT server I liked being able to use Ravs & PICS's.

Hm, in all honesty, I wasn't the sole decision behind forcing you to use RR. Why weren't you using RR anyway? Being forced to use it by the one server you play most, I wouldn't see a reason why. And, it stops you from using RGH. Instead of getting RR and coming back to play at =DA=, you went to TmX, where you can't tell if you're using RR or not, and were good there? Hm.

And, in all honesty, after you started using 4.0, you hardly ever snipe anymore. And the 1-2 times I have sniped with you, you were nowhere near as good as you used to be. Of course, that's how I noticed it.

On a sidenote, I didn't think you were getting too many kills. People were complaining about you to me, and I saw that you weren't using RR and some of the other mods agreed to forcerr you. If it's any consolation, I thought you were "okay before 4.0" but you weren't an amazing sniper, tbh :/ 4.0 coming out made me think differently of you, though lol..

Lol dude I don't hax, you just paranoid. I never came back that day cuz I got .net error I couldnt start ren up after. Fixed it a couple weeks later cuz several others kept insisting I install it. I never used RR before as I never needed it, must say it fixed a few things and I kinda liked it.

I've been running 4.0 for weeks and I play TMX quiet regularly still getting a few MVP streaks. Yes there are times I may not be as good as people expect me to be, I am human and I have bad days ie; sleep deprivation or stress. But pinning that on 4.0 pisses me off tbh.

If you look me up, I've only ever used 2 primary nicks, "kannies" & "SilverDwn". You will not find anything implying i've ever cheated, infact i've never installed anything dodgy on my machine apart from a partial clear scope (removing the green). I'm 27 years old and I would hate to ruin a game i've loved for years by installing a hack. I dont have anything to prove.

BTW my brother is orca234. Here is one of his vids, we play in a similar style, infact I was the one that taught him to free aim.

I guess I should make a video to clear my name, i'll get orca to help me with it.

Sigh the trouble we go through just for being better than the common people.
