Wilo wrote on Thu, 13 October 2011 12:34 Please take the time to read Facebooks TOS and you will see that all pictures uploaded become the property of FB.

Actually, last I looked Facebook had a disclaimer in the user privacy settings that specifically noted that all images and videos remained the property of the uploader. Just a minor point.

Also, for the record, all these storm did this / whoever did that / wilo said something nasty hissy fit argument topics are getting really tedious, can't everyone just talk to each other in private and settle things like adults instead of resorting to public shit flinging like common monkeys?
