08:543: Not positive but I dont think those units appear in any other C&C game.

You mean for question #3? The submarine and MiG was in RA1, 2 and 3. The Badger Bomber was in both RA1 & 3, but the V2 was only in RA1 (unless you consider the V3 and V4 in RA2 and 3 respectively to be the same unit that the V2 was).

Their all in the same nation which happens to use the color of R315r4z0r text!
