Knight wrote on Wed, 26 October 2011 03:15I finally got it to update to .555. Now the servers won't show up at all. .... refresh button is now stuck on "Refreshing"..

It does it for me too. I fixed this issue which is caused by a few ISP's firewall-routers not allowing the request to specific ips which times out the frontend.

try replacing the frontend EXE with this BETA frontend exe:
http://www.renegade-x.com/sc/updates/0_5_5_6/Renegade-X.exe

Tell me if that fixes the server listings not showing up.
