I think the spotting mechanic is better now that you don't have to say what it is you are spotting. If you spot an infantry, you spot an infantry. If you spot a tank, you spot a tank. You really shouldn't be able to confuse a jet with a soldier.

Yeah that worked fine back in 2142, it was just useful to be able to specify what you saw if you can't spot it anymore because it moved out of range.
