iRANian wrote on Mon, 31 October 2011 12:07i haven't actually seen anyone use sakuras/havocs effectively on fjords..it's like the APB sniper. Might as well remove them.

if the map had infinite infantry ammo, then rocket soldiers/gunners would be well worth using, plus rav/PIC/etc as units to hold the field. in which case, snipers would be much more useful as a counter to them.
