Is it still worth it to make this thing playable in Renny?  
I don't want to waste my time if it's not going to be played.

You can find some better pics of the layout in this thread:

If you make it work for Renegade, I'll definitely give it a shot on st0rm. I don't think Wilo has a problem with it. If it's a map worth playing, then we'll keep it.
