What is he winning? He's too busy posting on here to be making shitty maps. I think that is fucking WIN for the community.

You know, I had lost the log file for that one-sided conversation we had. The one I mentioned where you spent 30 minutes bad mouthing St0rm, how you were going to do all sorts of terrible things in retribution for them opening a server that would take away players from your server or other servers, etc...

My paraphrased recollection of what you said to me that day was giving you the benefit of the doubt; it's a shame that you're so rage filled that you'd attempt to destroy a gaming server because you have absolutely nothing positive to contribute to this community at all.

Purely out of curiosity, what compels you to stay in a place where most people see you as a washed up middle aged child?

I'm glad you kept that first logfile, I don't have it. I do have the second one. It is not "30 minutes", as you made it out to be. It was three sentences. The rest of that "30 minute" conversation was about Slayer21 using you like a ragdoll, if you recall.

These people can see me however they wish. That spat with Wilo was my exit out of this. I needed an excuse to get off of this computer so much, and I got it. Plus I was bored, and drama is always fun.

Hell I would've stayed off of this topic, if you hadn't of been a dick ingame the other day when you tried to poke fun at my horrible typing skills.

Starbuzz I still want that fucking picture.
