I was looking around the forums and I found the site URL:

Maybe somebody might find it interesting to look at

Star Wars has a BIG!!!! following so be prepared for a lot of critics with a hell of a lot of stuff to say about models.

By the looks of this character model they have some experienced modders:

But don't hold your breath, there's a lot of detail in Star Wars and many issues with the fans so it may be a while coming.

Well that's what I think anyways .

EDIT: Already found some bad news on the pictures page...

Quote:(crimson XI is my level edit guy, and he is nowhere to be found.)  
Seems like there not happy.
