Plus that server is not the only one doing that... a few entries down I see Tiberium Crystal War doing the exact same thing, whatever that is. Some sort of AOW mode with harvesters I assume... That's zunnie's C&C3/Renegade mod.

Oh, I don't tend to keep tabs on the active mods these days. Might suggest to him sometime that he adds [C&C3] or something to the title so people from GSA who haven't heard of it don't just try and join with stock Renegade.

Uh, The name of the server and The map it is running should be a dead give away that it isn't Renegade.
