i'm sorry you can't see wilo for what he is. i expect you probably believed what he said in the "truth" thread he started, don't you?

wake up; he's a complete sociopath, he's spent months and months endlessly attacking people who haven't provoked him (and he threatens to do worse than just attacking renegade servers), and he's still doing it, and he compulsively lies about what he's doing... and then he acts like he's the victim of the whole thing.

if you do respect him, you'll tell him to cut it out, because every now and again people like him actually get arrested. not very often, but it does happen.

then again he might ban you for saying so, he banned me for giving him equally good advice.
