So tell me what I have to do to prove that I am not attacking? Tell me that Spoon? You want my personal info? You want a live cam on me 24 / 7? I stopped all the bullshit after my post, I haven't attacked anyone or done anything. Maybe you need to open your eyes here and see that there are other people involved that are hiding in the shadows causing problems. How about the fact that the program was leaked out even more on all the threads?
