MDK, it's simple. Wilo steps down and st0rm can go back to it's business. That easy. He just doesn't want to because he's on this power-trip. It seems he's even enjoying this little drama-filled struggle, even though he's the one fueling it.

I don't know why you're relating real-world circumstances to a game, because they aren't really the same. The people that have played at jelly and other server that Wilo crashed their games FAR out-weigh the players at st0rm. And yet, you guys are saying that closing down st0rm servers for XWIS is affecting tons of st0rm players? What about the players at Jelly (which might I add again, FAR out-weigh st0rm players) that had COUNTLESS games crashed? Or, do you just choose not to acknowledge that fact?

St0rm doesn't have to shut down. Wilo steps down, it can (somewhat) go back to what it used to be. Until then, expect this. I don't know why so many people back Wilo up, knowing what he's done.. It's ridiculous.
