Correct no one will listen, so it is a moot issue to even bring it to anyone's attention. Everyone is hell bent on lets fire the torch at Wilo because hes a disgrace...blah blah blah. I am going to remain his friend either way so whatever happens to st0rm happens, I'd rather it be differently but oh well.

Honestly I don't even know all the facts that has lead up to this stupid shit as I didn't read all of the post Wilo made or that was made in the serverowners area and hell I even told him that if he wanted to crash my server he could do it all he wanted, not saying that it was him that was or still is doing it for that matter (IP states it not so not going to point fingers at anyone) because I am too use to this crap, as everyone else should be... I just have better things to do then just sit and torment someone and their community personally I don't really give a damn, I just wanna play the damn game...I am fine with it being on fagspy ...this has been going on in the Renegade Community since the beginning, pissed off server owners pissing on everyone's tree...and this stupid shit about everyone will just retaliate is just stupid on their part if they do ...whats it really going to prove? How much of a crybaby and coward they are.

EVERYONE just needs to talk it over by themselve and leave everyone else out of it...but everyone feels they are bigger than the other person so that was a waste of my time typing.
