Kikiller, I remember you at st0rm. My statement was directed at you not even being there for the incident. You may have been at st0rm longer than me, idc. I've been there quite some time on and off. Tbh, the community is shit now, and always has been if the Wilo has been doing shit like this (which he has) the entire team.

I think liquid has a right to keep bringing this up until everything is put in stone. He's spent months with constant attacks from Wilo on his server, where the players couldn't even play. All because Wilo wanted more players. I think that was probably part of the reason why we ended up hitting 70+ players whenever 4.0 came out. That and people just wanted to try it out.

Also, do you not know about Wilo "calling up his friend in the DoD" and getting personal information about Crimson? But Liquid is the one keeping things going, lol. I don't know what his goal is, tbh. What he'd do with public information anyway. He's just sad.
