I reread "The Truth" Thread again, Ill agree with you on the most part liquid it was a fucked up thing that he did, and i don't blame you for bringing it to light and the intensity of the subject to everyone. Plus There are a lot of people pissed off at this point, which is to be expected. But since i've read what has happened, and was not present at st0rm when this shitstorm happened. Due to being in the military and being thrown overseas. I'm just going to keep my opinion out of it for now on.
